

1957 Viking Severn Valley – SN V745

[EDIT]

**Notes:**

Frame serial number V745. This frame has Nervex Professional lugs which were used on this model from 1957 onwards, when the Tour Of Britain models was discontinued and the Severn Valley was reintroduced as the top Viking racing bike.

This frame has been authentically refinished with one or two minor modifications and is an excellent example of the model.

**Owner:** Peter Brown
